

# Mammogram Screenings Coming to LG&E/KU Facilities

October is Breast Cancer Awareness Month — a good time for women to have their annual mammogram screening. LG&E and KU's wellness program offers free mammograms to female employees, retirees and spouses who:

- are 40 years of age or older;
- have not had a mammogram in the past 12 months;
- do not have breast implants;
- are not pregnant or breast feeding; and
- have never had breast cancer.

Others may take advantage of the mammograms for a cost of \$138.75 (includes radiologist's reading). Insurance is accepted, or pay by cash or credit card.

A mobile mammography unit will be at the following company facilities on the dates listed:

#### **Lexington (9 a.m. to 4 p.m.)**

- Lexington Operations Center — Nov. 2
- Others may take advantage of the mammograms for a cost of \$138.75 (includes radiologist's reading). Insurance is accepted, or pay by cash or credit card.
- A mobile mammography unit will be at the following company facilities on the dates listed:
- #### **Louisville (9 a.m. to 4 p.m.)**
- LG&E Center — Oct. 3 and 4
  - Broadway Office Complex — Oct. 5, 6, and 7 and Nov. 11
  - Auburndale Operations Center — Nov. 12 (Saturday)

#### **Lexington (9 a.m. to 4 p.m.)**

- Lexington Operations Center — Nov. 2

All mammograms will be performed by the James Graham Brown Cancer Center's mobile mammography unit. To schedule an appointment at one of these facilities, call **1-888-802-8153** or **502-562-4362**.

#### **Other Wellness News**

Flu shot clinics will take place at company facilities later this year, based upon availability of the vaccine. Watch for a home mailing featuring locations, dates and times for free flu shots, which are available to employees, retirees and spouses.
